

One **example** beats three paragraphs of rules

SAME TASK, TWO PROMPTS

asking a model to reply to a customer on WhatsApp

DESCRIBE IT

"Reply politely and formally"

model guesses what you mean

OUT:

"Dear Esteemed Customer,
We are in receipt of your
valued communication..."

SHOW ONE EXAMPLE

IN: "order late?"

OUT: "Sorry sir, aapka order
kal tak aa jayega."

OUT:

"Sorry ma'am, delay ho gaya.
Aaj shaam tak deliver
ho jayega."

One example fixed tone, length and language together

- 1 'Reply politely and formally' gets you 'Dear Esteemed Customer, we are in receipt...'
- 2 Show one example instead: 'order late?' → 'Sorry sir, aapka order kal tak aa jayega.'
- 3 Now it matches your tone, your length and your language.

REMEMBER THIS

When a prompt is not working, add an example before adding more words.
